

Break down language barriers with AI translation

Boostlingo AI Pro together with Lightspeed provides real-time, multilingual translation so every student can access grade-level instruction in their language.

INSTANT LANGUAGE TRANSLATION

Make lessons accessible in real time. 130+ languages for captioning and 20+ languages for speech-to-speech interpretation.

ACCURATE INSTRUCTION

Integrates seamlessly with Lightspeed instructional audio systems for crystal-clear voice input.

INCLUSIVE LEARNING ENVIRONMENT

Support Multilingual learners and deaf or hard-of-hearing students to meet ADA and IDEA requirements.

Simple to use for teachers and students

- 1 Teachers select languages, share a QR code, and begin speaking using their microphone.
- 2 Students scan the code, choose their language.
- 3 Translations are delivered on students' laptops or devices via captions or AI-powered speech.

Bring clear, multilingual instruction to your classrooms.
